

technical data

Cardio - FUN

- **length:** 75 cm
- **width:** 36 cm
- **height:** 70 cm
- **weight:** 45 KG
- **cover:** ABS shock proofed polyurethane material
- **mechanic:** simultaneous working adjustment of height 300° ,adjustable handlebar, adjusting screws for elevations. Front transport rollers. Quiet Poly-V- belt drive
- **resistance:** eddy current brake magnet
- **operations mode:** rpm independent
- **voltage:** 115/230 Volt
- **precision:** + / - 10 %
- **display:** luminescent LED red, pulsemode coloured display
- **indicating range:** pulse, rpm, pulse signal, power, kjoule, kcal, time of training, distance
- **power:** 15 – 600 watts
- **puls mode:** earsensor telemetric pulse
- **programms:** structural profiles, games, mountain profil, speedway
- **safety:** VDE, GS, CE – proofed
- **features:** coloured pulse indicator
analog pulse display
- **range of:** trainings, fitness gyms, private homes, therapy applications hotels, reha
