

**technical data  
Pulsmed 300**

- **Length:** 75 cm
- **Height:** 120 cm
- **Width:** 36 cm
- **Weigth:** 45 Kg
- **Cover:** poly-urethan, shock proofed Material
- **Mechanic** simultaneous working adjustment of height, 300° adjustabel, handlebar, adjustings screws for elevation, 2 front transport rollers quiet Poly-V-belt drive
- **Voltage :** 115 / 230 volts
- **Resistance:** wear resistant eddy current brake magnet
- **Operation:** rpm independent
- **Voltage:** 110 / 230 Volts reversible
- **Display:** LCD display
- **Precision:** +/- 10 %
- **Indications:** Pulse, resistance, rpm, kjoule, kcal, O<sup>2</sup>max, dynavit value, watts/kg stop watch, descenting, time of training, speed, distance
- **performance:** 2 – 300 watts
- **Interface:** 1 x RS232

- **Pulse measurement:** earsensor, wireless belt
- **Programms:** 4
- **Characteristics feature:** pulse dependent performance with warming up and cool down function
- **Safety:** VDE, GS, CE proofed
- **Range of application:** training, fitness gyms, privat homes  
diagnostic, therapy, hotels, reha
